10TH ANNIVERSARY SPECIAL SECTION

45 The Best of Oracle Magazine

Oracle Magazine celebrates 10 years of publication with a special section that includes interviews with Oracle veterans; a feature story on one of Oracle's oldest customers, CERN; technical articles from some of our best contributors; and more.

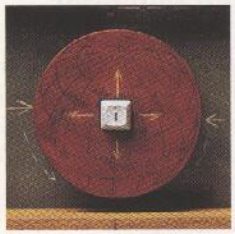
47 The Cure for Information Overload

By Leslie Steere

49 Follow the Leaders

Some of Oracle's top executives answer a few tough questions.

52 Jacobs' Ladder



79

By Marsha Bazley. Ken Jacobs, vice president of Product Strategy for Server Technologies, reflects on his tenure at Oracle and casts his vision ahead at the next ten years.

58 Facing Change

By Julie Gibbs. Sohaib Abbasi, senior vice president of Oracle's Tools Division, talks about building Oracle's tool chest from the ground up.

65 Exploring the Universe

By Jill Donley Rege. From Quarks to the big bang to the World Wide Web, CERN and Oracle have been partners at pushing the envelope for more than a decade.

73 Have Scripts, Will Travel

By Kevin Loney. Ten scripts every DBA should know.

79 Applications Determine the Future

By Steve Bobrowski. Ten industry trends to watch as we approach the twenty-first century.

COVER STORY

84 Objects in High Gear

By Philip J. Gill. Have you taken a look in your rearview mirror lately? It might be time. After 20 years of being relegated to the byways and side roads of enterprise development, object technology is moving full speed onto the information highway. Objects now top the list of technologies many chief information officers believe will be most in demand by the year 2000. Here's why this senior citizen of the computer industry is becoming a driving force today.

88 Glossary

A practical map to object lingo.

90 Objects in Education: San Joaquin Delta Community College

Corporate developers from around the world have been beating a path to the doors of San Joaquin Delta Community College to see a real, working example of an object/relational application.

92 Objects in Health: McKesson Corporation

To help its customers survive in this era of rapid change in the health-care industries, San Francisco-based pharmaceuticals distributor McKesson Corporation developed a turnkey supply-chain-management system. The product's object base makes it possible to develop highly customized versions based on individual customers' needs.

94 Objects at Oracle

You don't have to give up your relational edge to go down the object road. Here's how Oracle products enable a graceful merging of the two technologies.

Features continued

SAN FRANCISCO STATE UNIVERSITY

98 Reading, 'Riting, 'Rithmetic, & Relational

By Michael Miley. Oracle adds fourth R to California's public university system: As San Francisco State University migrates all of its key systems to Oracle Server, the university's financial-aid and class-scheduling tasks are getting easier, users can access data via Web browsers, and data-warehouse information is always current. What can SFSU's experience teach you?

METHODOLOGY

105 Group Development with Objects

By Dennis Gottlieb. Object-Oriented development presents its own set of challenges, among them consistency in standards and look-and-feel. This basic guide defines the physical requirements, the kinds of teams, and the development architecture that can help ensure success for your project.

DEVELOPMENT

111 Database Designer

By Andrew Cutler. Whether you're creating new databases, reengineering existing ones, or migrating databases to a different platform, the lightweight, graphical Database Designer tool from Oracle makes it easy.
