■ Y2K Web Resources

A selected list of helpful Web sites. *Page 64*

■ Oracle's Y2K Tool Kit

Oracle's tools, programs, and partners for Y2K. *Page 66*

COVER STORY

41 Beyond Y2K

By David Baum. Year 2000. While those two words strike terror in the hearts of companies everywhere, Oracle customers are putting systems in place that will allow them not only to survive but to prosper into the next millennium. Whether your strategy is to upgrade, repair, or replace noncompliant technology, this advice from industry experts and customers will help you ring in January 1, 2000 with confidence.

■ Ready to Roll?

A Year 2000 checklist. *Page 42*

■ Y2K: Truth or Consequence

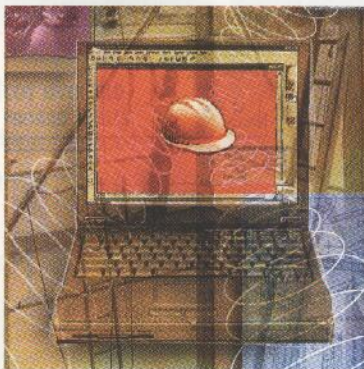

Only mainframe systems are at risk. Elevators will stop working. Planes will fall from the sky. Internet-based products don't have Y2K problems. Which of these statements should you believe? *Page 44*

■ Meltdown or Myth?

Does January 1, 2000 spell an Information Age Armageddon? According to some survivalist-technologists it does. *Page 48*

ORACLE8i/ORACLE8i LITE

70 Hard Hats and Laptops

By Michael Miley. BidCom plans to revolutionize the architecture, engineering, and construction industry by providing an Internet-based project-management service built with Oracle8i and Oracle8i Lite.

If the early response from BidCom's customers is any indication, the revolution is in process.

DEPARTMENTS

FROM THE EDITOR

11 Year 2000 Utopia

By Leslie Steere. Is anyone surprised? Lessons to learn from Year 2000.

INDUSTRY INSIGHTS

13 Making the Most of the Year 2000

By David Rodman. Despite the challenges, there are some silver linings to Year 2000.

120 Is Your Organization Really Ready for the Year 2000?

By Jeffrey A. Bloom. Naivete and denial surrounding Y2K issues are clouding the judgment of key decision makers. Some real-world examples.
