### COVER STORY

#### 34 RFP: The Ideal Intranet

*By Kelli Wiseth.* What's the best way for a company to sustain growth, enter new markets, streamline communications, and respond quickly to customer demands while increasing flexibility and agility and keeping overhead costs low? Here's how you can develop the ideal intranet to make it happen.

#### 52 Zoot Zips Up Java Development

Using Java to create online banking applications with Oracle Developer puts Zoot Enterprises ahead of the pack.

#### 56 Forging AmeriSteel's Intranet

A historic steel-supply company prepares for the Year 2000 with Oracle Developer, Oracle Application Server, and Oracle8.

#### 58 100% Solutions

New developments in Oracle tool suites make it easier for companies to create multitier, distributed, intranet-ready apps.

#### 60 Data, Thick and Thin

Using Oracle and Java technology gives companies access to their data regardless of hardware platform. Here's the lowdown on JDBC, applets, servlets, and the rest of the Java jive.

#### 64 Intelligent Business

Oracle's Business Intelligence System gives high-level managers the tools they need to answer tough business questions.

### DATABASE SERVER/APPLICATIONS/TOOLS

#### 68 Smart Moves

*By Cabell Breckinridge.* From California to New York, educational institutions are rebuilding their information systems to get better information for making business decisions, bringing interactive learning into the classroom, and meeting the Year

2000 challenge. What technology is at the head of the class? Oracle, of course.

#### 37 Corporate Intranet as Business Enabler

How implementing an intranet application can yield high returns for your business.

#### 41 6 Tips for an Airtight RFP

COVER BY RICHARD TUSCHMAN

# Departments
