### COVER STORY

## 36 Business Links

*By David Baum.* The fundamental methods by which business is conducted are changing as companies can link the enterprise, consumers, and communities through electronic transactions and electronic exchange of goods, services, and information. Business-to-business e-commerce turns supply chains into value chains, cutting costs and adding profits at every link.

## 44 E-Commerce Risks and Opportunities

The pros and cons of bringing electronic commerce into the supply chain.

## 46 Cisco: Mapping the E-Commerce Route

A world leader in Internet commerce, Cisco Systems is a powerful example of the advantages of electronic commerce.

## 50 UPS: Keeping Track

United Parcel Service helps companies streamline distribution, improve product delivery, and reduce inventory costs. And a partnership with Oracle brings integrated package tracking and delivery to Oracle Order Entry.

## 52 Forging Digital Links

The standards and building blocks of e-commerce.

## 56 Strategic Procurement

Make corporate procurement truly strategic by taking advantage of the opportunities electronic commerce offers.

## 58 Building Competitive E-Commerce Solutions

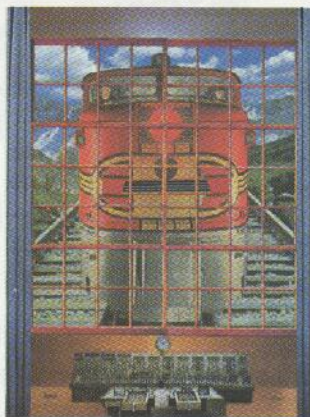

Oracle's solutions drive the most profitable business-to-business Web sites; shouldn't they drive yours?

## 60 United Front

Oracle's partners provide the nuts and bolts for successful e-commerce sites.

## 62 On the Right Track

*By Kevin P. Corbley.*

Austrian Federal Railways operates 3,720 regional and passenger-train routes and 275 long-distance routes. It maintains 5,849 kilometers of track, 5,993 bridges and viaducts, 240 tunnels, and 6,768 crossings. A new

graphical-information-system technology based on Oracle8 keeps everything on track.
