COVER STORY

34 Building Intelligent Enterprises

By Philip J. Gill. Reaping the benefits of business intelligence means turning the raw data your organization produces into the competitive fuel decision makers need to keep your company at the top.

36 Getting Started in the Business-Intelligence Game

Start with a business plan, supporters, and an overall architecture and standards if you want your system to be truly intelligent.

40 Banking on Decision Makers

Bank of America keeps a close eye on balances with a data mart.

44 Crediting Proactive Systems

Credit Union Services Corporation of Australia Limited relies on Oracle Express to gather information on its ongoing operations.

46 Five Intelligent Tech Trends

Portals, dashboards, the Internet, transactional applications, and packaged software will shape the future of business intelligence.

52 Shopping for Integration

Somerfield Stores uses an information warehouse to maximize its profits on the thin margins in the supermarket business.

56 Knowing What's Cooking

Tracking Twinkies in 200,000 U.S. retail outlets is one of the keys to keeping the bottom line rising for Interstate Bakeries.

60 Empowering an Environment

A BI system helps the British Columbia's Ministry of Environment, Lands, and Parks keep the government and public in the know.

61 A Better Class of Data

Implementing a BI system helped Columbia Teachers College eliminate an administrative backlog of report requests.

62 Business Intelligence in a Box

An brief roundup of Oracle's business-intelligence solutions.

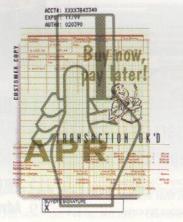

66 Smart Partnerships

Partners and their products complement Oracle's BI offerings.

ORACLE DATABASE SERVER/DATA WAREHOUSING/ORACLE DEVELOPER

68 Custom Credit

By Michael Miley. Starting in 1995 with an initial base of 1 million customers, Capital One Financial now serves nearly 18 million customers, manages

\$17.4 billion in assets, and has grown to be one of the top ten credit-card issuers in the United States. Using multiterabyte data warehouses to dig through information to target highly customized marketing has been key to Capital One's success.

DEPARTMENTS

FROM THE EDITOR

9 Intelligent Business

By Leslie Steere. There's more to business than paychecks and products: A citizenship primer.

INDUSTRY INSIGHTS

13 15 Rules for Enterprise Portals

By Wayne Eckerson. Portals are the next hot tool for busy executives. How to build portals that work.

120 Betting CRM on the Warehouse

By Aaron Zornes. From massive data store to information hub: The data warehouse evolution.

NEWS

17 Product News

Dragon AudioMining, Oracle Customer Relationship Management 3i, and more.

27 Value Added

Third-party tools for application integration, software development, and more.

BUSINESS INTELLIGENCE

77 Providing End Users with Easy Custom Reporting

By Kenny Smith and Tim Ware. Use Oracle Discoverer to set up a system that lets users create and run their own custom reports.

BUSINESS INTELLIGENCE

89 Basic Business Intelligence: Analyzing Web-Site Traffic

By Bradley D. Brown. Just a few well-written ad hoc queries can give you valuable insight into the data you collect about your Web-site visitors.

DATABASE ADMINISTRATION

93 Standardizing Your Interfaces

By Jason Couchman. Establish flexible interfaces between your Oracle database and other systems by using Oracle's UTL_FILE and DBMS_SQL packages.

SECURITY

101 Creating Virtual Private Databases with Oracle8i

By Mary Ann Davidson. With Oracle8i, you can implement security—once, in the server—and give users, customers, and suppliers access to production systems at the same time.
